

# CELEBRATING APOLLO

EYES ON THE SKIES

NO EVENT IN HISTORY SO CAPTURED THE IMAGINATION OF PEOPLE AROUND THE WORLD AS DID THE APOLLO XI ASTRONAUTS. THIS YEAR WE CELEBRATE THE 40TH ANNIVERSARY OF APOLLO 11'S JOURNEY TO THE MOON.

## APOLLO PROGRAM

What was the Apollo Program?

At 9:32am EDT, the swing arms move away and a plume of flame signals the lift-off of the Apollo 11 Saturn V space vehicle and astronauts Neil A. Armstrong, Michael Collins and Edwin E. Aldrin, Jr from Kennedy Space Centre Launch Complex

The Apollo 11 spacecraft Command Module is photographed being hoisted aboard the USS Hornet, prime recovery ship for the historic lunar landing mission

## APOLLO MISSIONS

The Apollo program included a large number of uncrewed test missions and 11 crewed missions. Research one successful Apollo mission.

Name and date of selected Apollo mission:

What were the stated objectives of this mission?

Who were the astronauts who participated in this mission?

What kind of data did this mission gather?

Resources that you used to obtain this information.

## APOLLO LEGACY

List some of the technological spin-offs from the Apollo Program.

From left to right ...Commander, Neil A. Armstrong, Command Module Pilot, Michael Collins and Lunar Module Pilot, Edwin E. Aldrin Jr

## NEIL ARMSTRONG

"The goal is far more than just going faster and higher and further. Our goal - indeed our responsibility - is to develop new options for future generations: options in expanding human knowledge, exploration, human settlements and resource development, outside in the universe around us."

From Neil Armstrong's speech at NASA's 50th anniversary celebration, 2008, Smithsonian Air and Space Museum in Washington, DC

Composite photo of President Richard M. Nixon as he telephoned "Tranquility Base" and spoke to astronauts Neil Armstrong and Edwin "Buzz" Aldrin

This photograph is a reproduction of the commemorative plaque that was attached to the leg of the Lunar Module, Eagle, engraved with the following words, "Here men from the planet Earth first set foot upon the Moon July, 1969 A.D"

"I believe that this nation should commit itself to achieving the goal, before this decade is out, of landing a man on the moon and returning him safely to the Earth. No single space project...will be more exciting, or more impressive to mankind, or more important...and none will be so difficult or expensive to accomplish."

President John F. Kennedy, 1961
