How's the weather?

We are all fascinated by weather. It dictates how and where we live, influences our activities and dominates our conversations.

Sometimes, extreme weather events have an enormous impact on our lives.

Understanding weather is the focus of our latest *Mercury* Newspapers in Education educational resource: **How's the Weather?**

As part of this resource the *Mercury* will inform students about weather systems, forecasting and why it's important, Australia's weather patterns, extreme weather events and climate change.

Our education kit will provide teachers with a ready-to-go resource to introduce this fascinating topic into your classroom while meeting core curriculum needs in **Humanities and Geography**

Participating teachers will receive workbooks for Primary and Secondary levels that include 15 activities each.

Included in the kit are class sets of the *Mercury* across five days from November 27-December 1, which include editorial poster material supporting the kit's key themes that teachers can use, cut out and display in the classroom.

WHAT'S IN THE KIT

- **15 PRIMARY** activity worksheets suited to Years 3-6
- **15 SECONDARY** activity worksheets suited to Years 7-10
- **15 copies of the *Mercury*** delivered to your school from Monday-Friday, November 27 to December 1, 2017.
- **BONUS:** The first 50 orders processed will include a free set of the *Mercury's* "Great Night In" DVD movie collection.

Kit subscribers will be reminded via email of impending newspaper delivery the week prior to allow time to notify your school administration office.

Activities suited to: Year 3 to Year 10
Curriculum relevancy: Humanities and Geography
